TECHNICAL SKILLS

- **Languages:** Java, SQL, Python, Java Script
- **Gen AI:** Gen AI concepts(Basics) and AI-assisted development
- **Frontend:** React.js, HTML, CSS, Axios
- **Backend:** Spring Boot, REST APIs, JWT Authentication, OAuth2
- **Database:** MySQL
- **Core Skills:** OOP, SDLC, MVC Architecture, RESTful Design, Docker (fundamentals)
- **Tools:** Git, GitHub, IntelliJ IDEA, VS Code, Postman, ChatGPT & GitHub Copilot
- **Soft Skills:** Team Work and Collaboration, Attention to Detail, Adaptability
- **Others:** Microservices, API Gateway, Eureka Service Registry

PROJECTS

- Hotel Booking System Web Application:** **Mar 2026**
- Designed and developed a full-stack hotel booking platform with user and admin roles
 - Built REST APIs for hotel listing, booking management, and user authentication
 - Implemented role-based access control (Admin/User) using JWT
 - Developed responsive UI using React with dynamic hotel listing and booking flows
 - Designed relational database schema for users, hotels, bookings, and availability
 - Ensured data consistency and validation across services
 - **Tech:** Java, Spring Boot, REST APIs, SQL, JWT Authentication
- Pharmacy Ordering System Web Application** **Feb 2026**
- Developed an online medicine ordering system with secure login and order tracking
 - Implemented backend services for medicine catalog, cart management, and order processing
 - Built REST APIs with proper request validation and exception handling
 - Integrated frontend with backend using Axios for API communication
 - Designed database schema for products, users, and orders
 - **Tech:** Java, Spring Boot, React.js, MySQL, JWT
- Expense Tracking Web Application:** **Jan 2026**
- Built a secure expense tracking system with CRUD operations and category filtering
 - Implemented JWT-based authentication and authorization
 - Developed REST APIs for expense management and reporting
 - Designed frontend dashboards to visualize user spending patterns
 - Handled input validation, error handling, and data persistence
 - **Tech:** Java, Spring Boot, React.js, MySQL, JWT

TRAINING

- Java Full Stack Developer Training** **Dec 2025- Feb 2026**
College Training Program
- Completed Java Full Stack Developer training under the HCLTech GET program, gaining hands-on experience in Core Java, Spring, Spring Boot, REST APIs, and Git-based version control.
 - Developed full-stack web applications including a Hotel Booking System and Pharmacy Ordering System with features like user authentication, role-based access, and database integration using MySQL and JPA/Hibernate.
 - Built and integrated backend services with frontend applications, applying concepts of microservices architecture, JWT-based security, and real-world project development practices.
- CERTIFICATES**
- Fundamentals of Visualization with Tableau** | [Coursera](#) **July 2023**
- Fundamentals of Management** | [Coursera](#) **Mar 2023**
- Python (Basic)** | [Hacker Rank](#) **Nov 2022**

ACHIEVEMENTS

- Top 5 finalist (Humble Code Hackathon):** **Oct 2025**
- Selected as top 5 finalist for the Android app development “Grocery Saver” among 40+ teams.

EDUCATION

- Lovely Professional University** **Punjab, India**
- *Bachelor of Technology - Computer Science and Engineering; CGPA: 7.56* **Aug 2022 - Present**
- Narayana Junior College** **Nellore, Andhra Pradesh**
- *Intermediate in MPC; Percentage: 92.7%* **Apr 2020 - Mar 2022**
- SVSN Siddhartha High School** **Piler, Andhra Pradesh**
- *Matriculation; Percentage: 100.0%* **Apr 2019 - Mar 2020**
