SKILLS

- **Languages:** Python, Java, Kotlin
- **Frameworks:** HTML, CSS, Spring, Spring Boot
- **Tools/Platforms:** MySQL, Tableau, Excel, Android Studio, Docker
- **Soft Skills:** Organized, Cognitive Thinking, Time Management, Work Efficient, Flexible, Adaptive

Projects

- **HealthMate AI – Intelligent Health Risk Prediction System** Apr 26
 - Engineered an AI-driven health prediction system integrating machine learning models to assess risks of heart disease and diabetes, achieving accuracies of 0.78 and 0.74 respectively for reliable early-stage detection.
 - Developed a modern Android application using Jetpack Compose, enabling real-time user interaction and seamless delivery of health insights.
 - Built a modular ML pipeline for efficient data processing and model inference.**Tech Stacks:** Python, NumPy, SVM, XGBoost, Kotlin, Jetpack Compose, Firebase
- **Meal Project – AI Powered Smart Meal Finder:** Feb 26
 - Created an intelligent meal recommendation system leveraging AI for personalized suggestions and calorie analysis.
 - Planned a distributed architecture integrating Spring Boot, React, and FastAPI services for scalable and efficient processing.
 - Executed AI modules with vector database support using ChromaDB to enhance semantic search and recommendation accuracy.
 - Collaborated within a team of 8 developers, leading AI development and contributing to backend service integration.**Tech Stacks:** Java, Spring Boot, React (Vite), Python (FastAPI), ChromaDB (Vector Database), JWT, REST APIs
- **Chess.com Clone – Interactive Board Game Application:** Jan 26
 - Developed an interactive chess platform leveraging a microservices-based architecture to manage game logic, user sessions, and gameplay state.
 - Applied secure authentication using Google OAuth2 Client, enabling seamless and reliable user sign-in.
 - Constructed core chess mechanics including move validation, check/checkmate detection, and game state management.
 - Crafted an intuitive interface to deliver smooth gameplay experience and real-time user interactions.**Tech Stacks:** Java, Spring Boot (Microservices), Google OAuth2 Client, OOP, Data Structures & Algorithms
- **Nifty Reck- AI Powered Mood-Based Book Recommender:** Jun 25
 - Built an intelligent book recommendation platform using AI and computer vision to personalize reading suggestions based on user moods.
 - Integrated facial emotion recognition using OpenCV and a FER model to detect real-time user expressions via webcam.
 - Used Google Gemini API to generate mood-based book titles and Google Books API to fetch live book cover images.
 - Implemented wish list functionality using browser Local Storage, and dynamic UI updates with clean client-side scripting.**Tech Stacks:** Python, Flask, OpenCV, Deep Learning (FER), HTML, CSS.

TRAINING

- **Board Infinity (Data Science Internship)** May 24 – Jul 24
Data Science Intern
About: Completed a data science summer training program, gaining proficiency in SQL, Excel, Python, and data visualization. Conducted an in-depth analysis of the top 100 highest-rated movies from the past decade, leveraging Python to extract insights into movie details, actor information, and voter demographics.
Tech stacks used: Python, SQL, Excel, Data Visualization

CERTIFICATES

- Programming Fundamentals in Kotlin(meta) | Coursera Nov 24
- Data Science | Board Infinity May 24
- A Day in the Life of Data Scientist | LinkedIn Apr 23
- 100 days of code: The Complete Python Pro Bootcamp | Udemy Dec 22

ACHIEVEMENTS

- **Attained a Hackathon and secured seventh position:** Feb 25
Among 2k+ participants which was conducted by Coding Blocks.
- **Dev-Hackathon | Web Development** Sept 24
Showcased advanced problem-solving and development skills in a competitive environment.

EDUCATION

- **Lovely Professional University** Jalandhar, Punjab
Bachelor of Technology – Computer Science Engineering; CGPA: 7.67 Since August 2022
- **Deeksha Junior College** Visakhapatnam, AP
Intermediate; Percentage: 79% April 2020 - March 2022
- **Sri Chaitanya High School** Visakhapatnam, AP
Matriculation; Percentage: 96% April 2019 - March 2020
